

USB-Connection  
Esp Board

### Materials

- Carbon fiber

- diamond

- titanium

- cloth

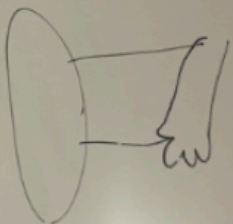

- rubber

- aluminum

- plastic

- nylon

- PLA

### FRAME

Plastic - PLA/3D printed material  
glove - cloth

TPU - flexible high elasticity, soft

### design superficial

- comfortable - shock absorbing

- lightweight

- pastel

- actuators  
- hydraulics hydraulics  
- pulleys - fishing line  
- Retor Pulley

### tech

- air propulsion

- hydraulics

- Flex Sensors

- bowden cable

### SOCKET

15 total?  
3 per finger

- rubber

- neoprene

Soft for User Comfort  
or Rigid for Structural Support?
